## **CLAIMS**

- A signal transducer specifically expressed in mouse mast cells, which is a purified protein having the amino acid sequence of SEQ ID No.
  2.
  - 2. A signal transducer specifically expressed in human mast cells, which is a purified protein having the amino acid sequence of SEQ ID No. 4.

10

- 3. A polynucleotide consisting of the base sequence of SEQ ID No. 1, which encodes the protein of claim 1.
- 4. A polynucleotide having the base sequence of SEQ ID No. 3, which encodes the protein of claim 2.
  - 5. An expression vector involving the polynucleotide of claim 3.
  - 6. An expression vector involving the polynucleotide of claim 4.

20

- 7. A cell transformed with the expression vector of claim 5, which produces a protein having the amino acid sequence of SEQ ID No. 2.
- 8. A cell transformed with the expression vector of claim 6, which 25 produces a protein having the amino acid sequence of SEQ ID No. 4.
  - 9. An antibody against the protein of claim 1.
  - 10. An antibody against the protein of claim 2.
